

# Data

This section represents results of the check performed by the agent.

Data								Table for field: -- Not selected --	Exact values: NO		
packetsTransmitted	packetsReceived	packetLossPercentile	numberOfErrors	numberOfDuplicates	roundTripMinimal	roundTripAverage	roundTripM				
4	4	0	0	0	49.488	49.668	50.021				

If an error occurs when setting a probe, a metric is automatically created in the Data table, the value of which contains the text of the error.

Data								Table for field: -- Not selected --	Exact values: NO		
<b>Sensor error!</b> Ping exited with error, exit code: 2											
Sensor error											
Ping exited with error, exit code: 2											

| To learn more about checks please refer to [Monitoring and checks settings](#) section.

**Exact values** switcher on the right transforms numbers to compact view with K, M, G and T postfixes:

Exact values	Compact view
1 234	1,2 K
1 234 567	1,2 M
1 234 567 890	1,2 G

button exports agent data to a CSV file.

| Double click on a table cell copies its contents to the clipboard.

It is possible to drag&drop columns to change their order.
