

# Chart

Chart is the widget to plot graphs.

Object/Link:  
Memory /Staging/Office/Routers/Memory

Metric name:  
MEM.bytesUsed

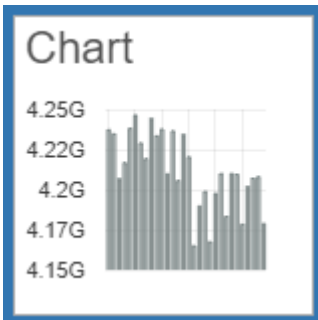

Period length:  
1 hour

Display legend  NO

Graph type:  
Histogram

Moving average  NO

Group by time:  
Auto

This widget allows to display:

- a graph for one metric from one object,
- a [multigraph](#),
- a [graph by mathematical operations](#)

for the last:

- 1 hour;
- 3 hours;
- 12 hours;
- 1 day;
- 3 days;
- 1 week;
- 1 month.

[Widgets time range](#)

button on the [Breadcrumbs](#) panel temporally switches displaying data to other periods. It does not change widget settings.

Field	Description
Display legend	It displays or hides the legend - to display the metric name.
Graph type	It allows to switch between histogram and linear chart.
Moving average	It allows to plot graph of trend.
Group by time	It allows to use decimation and show average values for the selected period.
<a href="#">Scale values</a>	Changing scale values (for multigraphs).
